"I have just become a 737 airline captain. I have achieved my ultimate dream… You gave me the courage to follow that dream and taught me how to use my mind in a positive way to create the pathway which would allow me to achieve my goal."

Captain Stanley

"When I came to see you, I was quite unhappy about my position and I was being paid about $36,000 p.a. You assisted me to set a goal that within 30 days I would have a position that suited my skills and that paid me 20% more. 23 days later my new position paid me exactly 21% more! (Three years later) … my position now pays me $75,000!"
